Today while we are going to Kazagashira mountain we found older people faint on the road,so we helped her and call to hospital ,I think today was very hot around 38°C and she walked on the mountain that can be very tried.Then we went to Sakamoto Ryoma statue and his first trading company .After all finished we go to eat Yakiniku. It very delicious when you eat with japanese rice and really enjoy to roast meat. At night we ate pizza and talk about tomorrow that Mr.Miyahara and Mr.Tsuruta need to go back to Fukuoka ,They are very best friends.

Today i think view on the mountain kazagashira is very beautiful ,Nagasaki City is around by mountain so you can see building and bay when you on the the top of mountain. About trading company I think it has less information and doesn't look interesting from what I thought.
