August 4.2016 , Nagasaki

Today I go eat breakfast in the morning by myself it very difficult to communicate with people here because my japanese language didn't well but I can understand sometime what they want me to know. Then came back to room to cleaned my room and wash my clothes. After Mr.Satoshi arrived here Ms.Okinaka took us down to 3rd floor for eat lunch with staff. I feel relax because they said to me *がんばって*. After lunch we went to sightseeing around Nagasaki.

First place that we went is Dejima. It is a demonstration of village in Edo era. All place we went by tram because it easy to get best destination in Nagasaki. Then we went to Oura Catholic Church and Glover Garden that nearby. Oura Church is like normal church that I used to see so we go to Glover garden.

Glover Garden is very big and had beautiful view. My impressive here is sample about Obon Festival and Dragon Dance. You can look VDO that play about how was they doing while in the festival. After this we came back to accommodation for rest and went to department store for eat food at night .

There is nothing special for me but I quite love Dejima because I really love Edo house style and see how clever that Japanese people think the innovation that can detect earthquake and many many things. I disappoint at Oura Catholic Church. It doesn't has anything interesting inside and the ticket cost 600 Yen that almost to ticket Glover Garden.
