

Move on +.+ : Day 3

July 29,2016

In this day, we moved to new accommodation. We will stay at here one month. I stay with two friends in the same room. The rooms have amenities. I like Japan home style which paving the mattress on the floor and sliding wooden door. Accommodation owners took us walking around for watching the room. A short walk to a 7-11 store and a market from my accommodation. I went through school, children have a cute hat and colorful insects also carrying a long stick with a small box. This is colorful summer which I found in Japan. I impress with Train Station because it's very convenient. Then we go to the restaurant, which is Thailand's dazzling Japanese traders come to talk business owner Thailand who work for the Ministry of Commerce of Thailand. Thai food is not very spicy, mild flavor applications, which I think might be palatable to the Japanese people. But if I try to eat really in Thailand, you will need a glass of water. Because the spicy hot taste that I do not eat spicy so I like Japanese

food. Next we go to ramen shop that has long known. But I'm still satisfied. I think that one day I'm going to eat it. Today is the first day we traveled back by train on their own. The train station of Tenjin and at Hakata. To return to the station, Takeshita went back and I have enjoyed every day of Fukuoka.
