At seminar room in the morning, I and my Thai friends(Kan, Earth and Peach) met Prof. Abiru for answered about company which we chose.

The result are...

Kan > She will join with Hakuunsha company where is the logistic company in Fukuoka.

Peach > He will join with Memolead Group where is a group of hotel and restaurant in Nagasaki.

Earth > She will join with Hoei Group where is a group of nursery home, high school and Japanese language school in Miyazaki.

Lookpla > I will join with Kubara Honke Group where is a group of food manufacturer and restaurants in Fukuoka

After that, I went to Sushi Zanmai Restaurant with my Thai friends and Japanese students. I ordered Sushi set The set included 10 pieces of sushi, as well as Miso soup and Chawanmushi. All of that is the best value and tasteful for fresh ingredients. I like it!

After finished lunch, we took a bus to Canal City where is a large shopping and entertainment complex. Attractions include about 250 shops, cafe, restaurants, theater, game center and hotels. I think I like the design of Canal city Building because it has been designed to

create a spacious and interesting atmosphere with creative and unique color.

After that, we went to Kushida Shrine where is the longest history as a village shrine in Fukuoka. We were sightseeing and taking some photo with Yamakasa.

At the dinner, we tried to eat Udon near Hakata area. I like this meal and then we returned to seminar house by Taxi.
