Today is presentation's day. Everyone got up early for preparing the presentation. I have a chance too saw many presentation from other projects. I don't understand as well because they spoke in Japanese only. But I feel mostly of that had a great presentation.

About Kubara Honke project's presentation, I think our project members tried to prepare as well. When we finished presentation, Many advisors gave a feedback and recommended many things to us. Then, Kubara Honke project members had a meeting for re-plan how to do project in the next steps. When finished meeting, Koyo invited me to go Hiraodai with him. There is far from Fukuoka, so we planed to take a bus to Kitakyushu tonight and sleep at Koyo's friend home where is not far from Haraodai. So I have an appointment with him again in the evening at Tenjin area.

After that, I went to Tenjin with Peach and Earth for looking something to eat. We went to Sushi restaurant and I ordered Sushidon which came with miso soup and salad. It's yummy!

At the evening, I had a meeting with Koyo again at Tenjin area. He bring me to Tenjin Express Bus Terminal. We spent time on the bus from Fukuoka to Kitakyushu around 1 hour.

Then we went to Koyo's friend home where I met 2 new friends who name are Kensiro and Shiho. They are very kind and funny. We cooked a foods for dinner and played a cards together. After that they bring me to walking around there. There looks calm and a little different from Fukuoka.
